## Integrating Talent Development into Innovation Ecosystems in Higher Education

586227-EPP-1-2017-1-BG-EPPKA2-CBHE-JP

Welcome to the INNOTAL project platform

Page | 1 **About the project**

The INNOTAL project (Integrating Talent Development into Innovation Ecosystems in Higher Education) is implemented in the framework of the Erasmus+ Programme, Action - Capacity Building in Higher Education. The project partnership involves 5 EU partners (4 of which are universities) from Bulgaria, Greece, Finland and the UK, and 10 Partner Country universities: 4 from India, 2 from the Philippines, 2 from Nepal and 2 from Sri Lanka.

### Project objectives

The INNOTAL project aims to build the capacity of universities in the Philippines, Nepal, Sri Lanka and India to embed graduates' employability in their core activities and to facilitate the development of student talent through co-curricular and extracurricular innovation activities involving key stakeholders, with a view to contributing to youth employment, inclusive growth and sustainable development.

All dimensions seek to re-design students' learning experience, introduce a challenge-driven learning model, improve graduates' employability skills, strengthen Partner Country universities' interactions with business, and involve external stakeholders in student talent development.

### Talent Co-creation Lab

- ◆ It is a shared space where University faculty, students, industry, NGOs etc can work together.
- ◆ It is equipped with computers and multimedia.

### Expectations from the Talent Co-Creation Lab

- ❖ Different units/cells that are related with Projects, Placements, Innovations, Innovation Council, ASPIRE-BioNEST, etc. of the university are invited to participate in the lab in order to have effective coordination with external stakeholders.
- ❖ In this regard, CII is invited to support and participate in the Lab.

This project has been funded with support from the European Commission.

This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Co-funded by the  
Erasmus+ Programme  
of the European Union

- ❖ Live innovation projects - companies, NGOs or public organizations can present a real-world business ideas or social issues for a research team of students and faculty to solve.
- ❖ Training program's will be designed and delivered jointly by external organizations and the University, to focus on knowledge and skill development that are currently in demand.
